

Torn Corner “Starter for 10” Questionnaire

Your name: _____ Phone number: _____

To help you pull together the details of your family and to make it easier for us to enter the data into your new Genbox Family History database, we have put together this short questionnaire.

Please enter the basic details of up to ten members of your family. This can include their:

- Full Name
- Dates of Birth, Death and Marriage
- Names of Husbands / Wives, Children, Brothers and Sisters

Of course you may not have all the information for each person, so just fill in what you know. You can enter the details of any part of your family tree, but we would suggest that you include yourself and that you concentrate on people that you are directly related to i.e. excluding cousins, nephews and Great Aunts.! Please note that the key bit of information for each person on the list is always their relationship to ‘Person 1’. If there is any other information that you’d like to add that there isn’t a box for (e.g. more children, second marriages etc.), just pop it on a separate sheet and send it through to us.

We have also included a blank space at the end of the questionnaire for you to draw your family tree (if you wish to) – a picture paints a thousand words and all that !
